Q. Why take a PSAT/SAT Boot Camp?

Unlike in years past, today most serious students preparing for their college education are taking a preparatory class to increase their college entrance exam scores. These students will have an advantage over those who do not take one.

Boot Camp is:

- ✓ 6 weeks
- ✓ Convenient for fall athletes
- ✓ Convenient for working students
- ✓ Jam-packed with course content
- ✓ Maintains students' mental edge during summer
- ✓ Complimentary to Fall school work
- ✓ Offers mini-sessions available 30 minutes prior to class on pre-determined days for extra help in subjects like factoring, vocabulary, and the ilk
- ✓ Excellent preparation for August SAT
- ✓ August testing relieves testing pressure during senior school year
- ✓ Helpful in achieving academic and athletic scholarships at Division 1 schools with long-term networking perks
- ✓ Helpful in achieving one of numerous other scholarships including American Indian Graduate Center and American Indian Graduate Center Scholars (AIGC and AIGCS), Asian and Pacific Islander American Scholarship Fund (APIASF), Hispanic Scholarship Fund (HSF), Jack Kent Cooke Foundation (KCF), and United Negro College Fund (UNCF), plus many other institutional and private scholarship opportunities.

Desirability for higher college entrance exam scores are straight forward and generally fall into one of the four following categories:

1. To pass the admissions standard for the college of your choice
2. To gain acceptance into the honors program
3. To reduce the cost of out-of-state tuition
4. To qualify for scholarships

Q. When should you take a Boot Camp?

A. The sooner the better.

- As a **Senior**, to score higher on the August SAT in order to qualify for admissions and scholarships more quickly
- As a **Junior**, to compete for National Merit Commended, Semi-finalist, and Finalist status and the increased scholarships that come with it

GENERAL INFORMATION: The Prep Course addresses all three sections of the New SAT/New PSAT. Math is now 1/2 of the test; the Writing/Language and Reading sections together equal only 1/2 of the test. The **Writing/Language** preparation includes review of punctuation, grammar, sentence structure, and common usage errors. The **Reading** preparation includes an intense vocabulary study (including Latin and Greek prefixes, suffixes, and roots), as well as a study of successful test taking strategies. The **Math** preparation reviews geometry, the more extensive algebra covered on the SAT, and data analysis. Also taught, are time saving shortcuts and helpful strategies, such as back solving and using special numbers. Prep also includes interpreting relationships presented in graphs and tables, which is necessary for success in all three sections of the tests. General test-taking strategies are also taught. Weekly assignments include readings, vocabulary memorization, reworking math problems, and mastery of class notes. SAT/PSAT Practice Tests taken at home are an integral part of this course, providing the student an opportunity to practice newly learned skills. The Orientation Class, Writing Class, and summer vocabulary/grammar memorization schedule are designed to help students accomplish as much work as possible before the busy fall semester begins.
